Added to: [DC Program Page](#)

An update has been made to the quarters in which DC students may take a selective course:

Quarters 1-12

Selectives - Students are required to take a minimum of 2 *selectives (each selective is 0.5 or more credits). Electives may be used to meet this requirement. *See selective and elective options in the tables below. (*View this information in the catalog).

CED 6842 Chiropractic in Integrated Health Systems has been added as a selective option in the DC for students in quarters 5-12:

CED6842 Chiropractic in Integrated Health Systems

Credits: 1

Explore how chiropractors contribute to patient care within integrated health systems, including academic medical centers, the Veterans Health Administration, and other team-based healthcare environments. Examine organizational structures, care delivery models, interprofessional collaboration, professional role development, and clinical decision-making in system-based practice. Analyze clinical cases and emerging postgraduate training and career pathways that support practice within integrated settings. Learn through seminars, case-based discussions, and conversations with clinicians and leaders who work within established health systems.

Grading: P/NP

Addendum to the 2026-2027 Academic Catalog

Effective: 10/05/2026

Original Catalog Locations: [MS-CMHC Program Page](#)
[MS-MHLTH Program Page](#)
[EdD-SPP, CMHC Specialization Program Page](#)

The course description for the MS-CMHC, MS-MHLTH and EdD-SPP, CMHC Specialization course COUN 6611/7611 Human Sexuality Counseling has been updated:

COUN 6611/7611 Human Sexuality Counseling

Credits: **4**

This course prepares mental health counselors to ethically and competently assess and address human sexuality using a sex-positive, trauma-informed, affirming, and social justice-oriented approach. Students build knowledge across the biological, psychological, relational, and sociocultural dimensions of sexuality, and develop skills in assessment, case conceptualization, and evidence-informed intervention, including how to broach sexual topics and take a sexual history. The course centers self-awareness, cultural responsiveness, and ethical and legal decision-making, including consent laws, mandated reporting, and the limits of confidentiality, with a sport and performance psychology lens infused throughout.

Grading: G

Effective: Ongoing
